

VoiceMail/Answering Machine Waiver

Equitas Health takes patient privacy and security seriously. We do not provide sensitive information on voicemail without your permission. By signing this agreement, you give us permission to leave a message about normal or otherwise nonreactive lab results on your voicemail (or text when available). We will never leave concerning or reactive lab results on your voicemail.

Before signing this waiver, please understand the possible risks associated with us leaving such messages, such as someone accessing your voicemails without your knowledge. Please note, you may at any time revoke this waiver. Simply notify your provider or the receptionist that you no longer wish to receive such voicemails (or text messages).
